## SUMMER CLUB

Once the school year is over it's time to enjoy and focus on our mental health through leisure, creativity and sport. It's the moment to have a great time with our friends and also meet new faces. That's why we have organised this summer club with a wide range of activities and workshops focused on our personal growth and wellbeing.

We will carry out different activities such as creative and cooking workshops, cooperative games, team building activities, trips, mindfulness, theme-based activities and much more.

This summer school will help students to strengthen self-knowledge and increase self-esteem, encourage and promote positive social relationships and complement the overall development with the help of our highly qualified and trained instructors.
